WLB1 Step Light

Bricklytes - Horizontal & Vertical Orientation

Designed as a matched replacement for a standard sized brick, Bronzelite Bricklytes are available in fluorescent, incandescent, LED and low voltage sources. The choice of horizontal, vertical or frosted lens unit fits discretely into a brick space and enables light to be directed where it is needed.

LED:

Cool external temperatures - all below 38°C! - so the luminaire is cool to the touch, including the lens. Perfect for high pedestrian traffic and plant life applications. Exceeds European Standard EN 563 for both 1 second (74°C for coated metal, 80°C for glass) and 4 seconds (61°C for coated metal, 70°C for glass) of contact.

IP66 Rating

ADA

Specifications

Housing:

Recessed, water-tight, die-cast, copper-free aluminum for corrosion resistance in concrete applications. Includes four 1/2" NPT conduit entries and ample wiring compartment for through-wiring.

Trim Ring:

Dark bronze (color-impregnated) polycarbonate for superior corrosion resistance. Silicone gasket ensures positive, watertight seal.

Face Plate:

Horizontal and vertical louver assemblies sand cast bronze with 45° cutoff. Lens frame for frosted lens is color-impregnated polycarbonate with finish to match fixture.

Lens:

Lens is frosted tempered glass.

Fasteners:

Tamper-resistant stainless steel.

Electrical:

Sockets are pre-wired with high temperature #18 AWG wire. Electrical components are mounted to a removable tray with quick disconnect for easy installation after housing is installed.

LEDs 10.4 total watts (3) 1W LEDs, 13.5 total watts (5) 1W LEDs. Input voltage range of 108-132VAC.

Ballast:

All compact fluorescent ballasts are normal power factor, Class B core and coil, 120 VAC, rated for 0° F starting temperature.

Step-Down Transformer:

120:12 core and coil isolated primary to secondary. 95% efficiency rating, sound rating "A".

Sockets:

All incandescent sockets are medium base. 9 watt fluorescent socket is G23. 13 watt fluorescent socket is GX23-2. 18 watt fluorescent socket is G24Q-2. All low voltage sockets are single contact bayonet base.

ADA:

This fixture is in compliance with the Americans with Disabilities Act.

Thermal Protector:

Required for non-masonry incandescent and low voltage installations, must be ordered as an option (add suffix "P" to catalog number). Unit is mounted from inside the housing and is field replaceable without removing fixture from housing. Not required or offered for masonry installations.

LEDs:

Luxeon® white brightness (HB) LEDs. Deliver 70% lumen maintenance at 50,000 hours. Cool white (5500K nominal). Warm white (3000K nominal).

Powered by Advance™: Integral Advance™ electronic LED driver with integral surge protector. UL Class 2. -40°C/F minimum starting temperature. Pre-wired with #18 AWG wire. Electrical components are mounted to a removable tray for easy installation after housing is installed.

Finish:

Housing finished in thermoset polyester powdercoat, Black (BLK).

Warranty:

Five year limited warranty.

Certification:

ETL Listed to U.S. and Canadian safety standards for wet locations.

Accessories

(Must be Ordered Separately and Field Installed)

MAKM: Masonry Mounting Kit

BMAKNS: New Stud Wall Mounting Kit

BMAKES: Existing Stud Wall Mounting Kit

To order fixture without housing, add suffix "LH" (less housing) to complete catalog number. Example: WLA1040IHL120DBLH
1 - Thermal protection is required for interior or insulated walls. Add suffix "P" to ordering number. Not required for LED and fluorescent.
2 - Housing only for pre-ship.

Note: Lamp not included.

 Some luminaires use fluorescent or high intensity discharge (HID) lamps that contain small amounts of mercury. Such lamps are labeled "Contains Mercury" and/or with the symbol "Hg." Lamps that contain mercury must be disposed of in accordance with local requirements. Information regarding lamp recycling and disposal can be found at www.lamprecycle.org
